

Department of Human Services
IOWA Medicaid Program
Draft PDL for the P&T Meeting November 19,
2020
(Two Drug Columns)

Highlighted categories denote new changes to the PDL since previous update

Column Header Explanations:

B, G, O:

- B = Brand
- G = Generic
- O = OTC

P, NP, R, or NR:

- P = Preferred
- N = Non-Preferred
- R = Recommended
- NR = Non-Recommended

Key to Color Highlights:

- Blue = Changes in PDL Status/PA Criteria
- Pink = New Drugs
- Blue Underline = Click hyperlink for PA Form
- Hover to the left of Comment Number for comment text

<u>Comment Num</u>	<u>Comment</u>
3	BUSPIRONE 30mg - Use 2 BUSPIRONE 15mg tablets
6	FLUOXETINE HCL 20mg TABS - Use FLUOXETINE HCL 20mg CAPS instead
11	PA Required
13	PA Required > 90 days
16	Grandfathered for Existing Users with previous Actos use or CHF diagnosis
17	PA Required > 12 Units/30 Days supply
19	Preferred < 8yo
23	ULTRACET - Use Tramadol & Acetaminophen separately
24	PA Required >= 21 yo.
27	PA required for quantities exceeding 12-40mg capsules and 8-80mg capsules
28	PA required for quantities exceeding 60-4mg tabs, 60-8mg tabs
29	PA required for quantities exceeding 60-4mg tabs, 60-8mg tabs.
36	Payable for members who are 12 years of age and older. Quantity limitations of 12 packets/4 weeks (28 days) or a total of 48 packets/16 weeks (112 days).
37	Restricted to persons 40 years of age and older.
39	Grandfather Existing Users
43	PA required for concurrent therapy with long acting injectable and oral antipsychotics of the same chemical entity after 12 weeks (84 days) of concomitant therapy.
46	Grandfather for seizure disorder.
47	Preferred with Conditions and allow a one time fill.
48	Those 0-18 should be referred to the Vaccines for Children Program.
50	Requires a Selected Brand Name Drug PA
52	Imipramine Pamoate - Use Imipramine HCL
63	Initial fill limited to 15 day supply.
64	Use Multiples of Phenytoin Sodium 100mg Capsules.
69	Payable for members who are 18 years of age and older. Quantity limitations of 30 grams/4 weeks (28 days) or a total of 120 grams/16 weeks (112 days)
70	Payable for members 50 years of age and older without prior authorization
72	Preferred < 2 years of age
74	PA Required < 4 years of age
76	PA Required < 15 years of age
77	PA Required < 6 years of age
78	PA Required < 9 years of age
80	PA Required < 18 years of age
87	No manual PA required if HMG-CoA reductase inhibitor found in member's pharmacy claims history in past 12 months.
89	PA Required < 7 years of age
90	No manual PA required if a preferred injectable MS agent is found in member's pharmacy claims history in past 12 months
92	Preferred for ages 19 through 64
93	No PA required for members 6 years of age or older when dosed within established quantity limits
98	PA required. Preferred for all indicated diagnoses after step through one preferred TNF.

99 Preferred product is authorized generic of EpiPen distributed by labeler 49502
105 Unit Dose Preferred. No manual PA required if a preferred artificial tear agent is found in member's pharmacy claims history in past 12 months
106 Preferred for indicated age group (2 to 12 years of age)
110 72-hour emergency supply not available
111 PA required < 6 years of age and > 17 years of age
112 PA Required < 3 years of age and > 20 years of age
113 PA Required < 6 years of age and > 20 years of age
116 PA Required. Preferred product is authorized generic distributed by labeler 68682
117 PA Required < 12 years of age
119 PA required. Preferred for patients 3 years of age and older and less than 35kg
120 Preferred after step through a preferred reconstitution product

Iowa Medicaid Preferred Drug List (PDL)
New Drug Process

New Drug Entities

New drug entities (including new generics and new drug product dosage forms of existing drug entities) will be identified weekly and immediately be coded as "**Non-preferred-Prior Authorization required**" until presented at the next scheduled P&T [pharmaceutical and therapeutics] Committee meeting. If the drug category requires step therapy, the step therapy requirements must also be met, treating the new drug as a non-preferred, step 3 drug. These prior authorization and step therapy restrictions will continue through the review process, including while committee recommendations are being made, and lasting until DHS makes a final determination. The 72-hour emergency supply may not be available for medications intended for a short duration of therapy.

Exceptions to the Non-preferred default policy for new PDL drugs

There are two major potential exceptions to the non-preferred default policy for new PDL drugs:

A). If a new medication is classified as a priority drug by the FDA, the State may indicate that such a drug is preferred, until the drug is reviewed by the P&T Committee at the nearest scheduled meeting.

B). The State may decide to designate a new drug as "draft preferred" and provide immediate access and increased therapeutic choice to physicians until the drug is reviewed by the P&T Committee at the nearest scheduled meeting if:

- a new drug is therapeutically equivalent or superior to existing preferred or non-preferred choices, and
- is as safe or safer than existing preferred or non-preferred choices, and
- the net cost, adjusted for all rebates, is less expensive than all existing preferred choices.

Existing PDL Drugs

Although the State discourages supplemental rebate offers on existing PDL drugs between annual bidding periods, it may entertain such bids and may accept them if they are determined to represent significant additional savings or if they would replace a delinquent manufacturer's product or a preferred drug pulled from the marketplace or significantly restricted by the FDA. This interim preferred status will remain in effect until the drug is reviewed by the P&T Committee at the next scheduled meeting. Supplemental rebates will only be invoiced for approved drugs under contract. Draft preferred drugs with supplemental rebates will not be invoiced until approved by the Committee and accepted by the State. At that time, the supplemental rebates will be invoiced back to the effective date of the agreement, which is the date the drug began to benefit from preferred status.
