**Prior authorization (PA) is required for biologicals used for plaque psoriasis. Request must adhere to all FDA approved labeling for requested drug and indication, including age, dosing, contraindications, warnings and precautions, drug interactions, and use in specific populations. Payment for non-preferred biologicals for plaque psoriasis will be considered only for cases in which there is documentation of previous trials and therapy failures with two preferred biological agents. Payment will be considered under the following conditions:**

1. Patient has a diagnosis of moderate to severe plaque psoriasis; and
2. Patient has documentation of an inadequate response to phototherapy, systemic retinoids, methotrexate, or cyclosporine.

The required trials may be overridden when documented evidence is provided that use of these agents would be medically contraindicated.

***IMPORTANT NOTE:*** *In evaluating requests for prior authorization the consultant will consider the treatment from the standpoint of medical necessity only. If approval of this request is granted, this does not indicate that the member continues to be eligible for Medicaid. It is the responsibility of the provider who initiates the request for prior authorization to establish by inspection of the member's Medicaid eligibility card and, if necessary, by contact with the county Department of Health and Human Services, that the member continues to be eligible for Medicaid.*
