

## Iowa Department of Health and Human Services Iowa Medicaid Program Draft PDL for the P&T Meeting April 16, 2026

Highlighted categories denote new changes to the PDL since previous update

**B, G, O:**

B = Brand  
G = Generic  
O = OTC

**P, N, R, or NR:**

P = Preferred  
N = Non-Preferred  
R = Recommended  
NR = Non-Recommended

**Key to Color Highlights:**

  - Changes in PDL Status/PA Criteria  
  - New Drugs  
[Blue Underline](#) - Click hyperlink for PA Form  
 Hover to the left of Comment Number for comment text

Comment Num	Comment
6	FLUOXETINE HCL 20mg TABS - Use FLUOXETINE HCL 20mg CAPS instead
11	PA Required
12	PA Required. Weight loss indication not covered
13	PA Required > 90 days
16	Grandfathered for Existing Users with previous Actos use or CHF diagnosis
17	PA Required> 12 Units/30 Days supply
19	Preferred < 8yo
23	ULTRACET - Use Tramadol & Acetaminophen separately
24	PA Required >= 21 yo.
28	PA required for quantities exceeding 60-4mg tabs, 60-8mg tabs
29	PA required for quantities exceeding 60-4mg tabs, 60-8mg tabs.
36	Payable for members who are 12 years of age and older. Quantity limitations of 12 packets/4 weeks (28 days) or a total of 48 packets/16 weeks (112 days).
37	Restricted to persons 40 years of age and older
37	Restricted to persons 40 years of age and older.
39	Grandfather Existing Users
46	Grandfather for seizure disorder.
47	Preferred with Conditions and allow a one time fill.
50	Requires a Selected Brand Name Drug PA
52	Imipramine Pamoate - Use Imipramine HCL
63	Initial fill limited to 15 day supply.
64	Use Multiples of Phenytoin Sodium 100mg Capsules.
69	Payable for members who are 18 years of age and older. Quantity limitations of 30 grams/4 weeks (28 days) or a total of 120 grams/16 weeks (112 days)
70	Payable for members 50 years of age and older without prior authorization
72	Preferred < 2 years of age
74	PA Required < 4 years of age
77	PA Required < 6 years of age
78	PA Required < 9 years of age
80	PA Required < 18 years of age
87	No manual PA required if HMG-CoA reductase inhibitor found in member's pharmacy claims history in past 12 months.
90	No manual PA required if a preferred injectable MS agent is found in member's pharmacy claims history in past 12 months
93	No PA required for members 6 years of age or older when dosed within established quantity limits
98	PA required. Preferred for all indicated diagnoses after step through one preferred TNF.

Comment Num	Comment
99	Preferred product is authorized generic of EpiPen distributed by labeler 49502
105	Unit Dose Preferred. No manual PA required if a preferred artificial tear agent is found in member's pharmacy claims history in past 12 months
106	Preferred for indicated age group (2 to 12 years of age)
110	72-hour emergency supply not available
111	PA required < 6 years of age and > 17 years of age
112	PA Required < 3 years of age and > 20 years of age
113	PA Required < 6 years of age and > 20 years of age
117	PA Required < 12 years of age
119	Preferred product is labeler 00781
121	Preferred after step through armodafinil or modafinil
122	PA required for quantities exceeding 50mL per 30 days
125	PA required. Preferred for treatment with quantity limit; Non-Preferred for prophylaxis
126	PA Required < 6 years of age and > 9 years of age
127	PA required > 12 years of age
128	PA Required < 16 years of age and > 20 years of age
129	PA Required < 17 years of age and > 20 years of age
130	PA required for 110mcg >= 12 years of age
131	Preferred product is by labeler 00955
132	PA required for males
133	PA required < 16 years of age
134	Preferred < 5 years of age
135	12 month lookback for 2 antiepileptic drugs
136	PA required for diagnosis confirmation
137	APIs and Excipients
138	Follows step therapy for atypical antipsychotics
139	14-day supply per 60 days

## Iowa Medicaid Preferred Drug List (PDL) New Drug Process

### New Drug Entities

New drug entities (including new generics and new drug product dosage forms of existing drug entities) will be identified weekly and immediately be coded as "Non-preferred-Prior Authorization required" until presented at the next scheduled P&T [pharmaceutical and therapeutics] Committee meeting. If the drug category requires step therapy, the step therapy requirements must also be met, treating the new drug as a non-preferred, step 3 drug. These prior authorization and step therapy restrictions will continue through the review process, including while committee recommendations are being made, and lasting until DHS makes a final determination. The 72-hour emergency supply may not be available for medications intended for a short duration of therapy.

### Exceptions to the Non-preferred default policy for new PDL drugs

There are two major potential exceptions to the non-preferred default policy for new PDL drugs:

- A). If a new medication is classified as a priority drug by the FDA, the State may indicate that such a drug is preferred, until the drug is reviewed by the P&T Committee at the nearest scheduled meeting.
- B). The State may decide to designate a new drug as "draft preferred" and provide immediate access and increased therapeutic choice to physicians until the drug is reviewed by the P&T Committee at the nearest scheduled meeting if:
  - a new drug is therapeutically equivalent or superior to existing preferred or non-preferred choices, and
  - is as safe or safer than existing preferred or non-preferred choices, and
  - the net cost, adjusted for all rebates, is less expensive than all existing preferred choices.

### Existing PDL Drugs

Although the State discourages supplemental rebate offers on existing PDL drugs between annual bidding periods, it may entertain such bids and may accept them if they are determined to represent significant additional savings or if they would replace a delinquent manufacturer's product or a preferred drug pulled from the marketplace or significantly restricted by the FDA. This interim preferred status will remain in effect until the drug is reviewed by the P&T Committee at the next scheduled meeting. Supplemental rebates will only be invoiced for approved drugs under contract. Draft preferred drugs with supplemental rebates will not be invoiced until approved by the Committee and accepted by the State. At that time, the supplemental rebates will be invoiced back to the effective date of the agreement, which is the date the drug began to benefit from preferred status

### Recommended Drug List

The Recommended Drug List (RDL) is a group of drugs subject to clinical prior authorization only if indicated in the comment section. These drug categories include antiretroviral drugs primarily for the treatment of human immunodeficiency virus or acquired immune deficiency syndrome and antineoplastic drugs used for the treatment of cancer. The P&T Committee classifies RDL drugs as either recommended or non-recommended on the basis of their relative clinical/cost values. Drugs on the RDL may change to Preferred or Non-preferred status when generic products become available. The State favors recommended drugs equally with preferred drugs, as the State may collect supplemental rebates from drugs on both lists.
