# Iowa Department of Health and Human Services
# Iowa Medicaid Program
# Draft PDL for the P&T Meeting November 19, 2026

Highlighted categories denote new changes to the PDL since previous update

**B, G, O:**
B = Brand
G = Generic
O = OTC

**P, N, R, or NR:**
P = Preferred
N = Non-Preferred
R = Recommended
NR = Non-Recommended

**Key to Color Highlights:**

Blue - Changes in PDL Status/PA Criteria

Pink - New Drugs

Blue Underline - Click hyperlink for PA Form

| Comment Num | Comment |
|---|---|
| 11 | PA Required |
| 12 | PA Required. Weight loss indication not covered |
| 13 | PA Required > 90 days |
| 16 | Grandfathered for Existing Users with previous Actos use or CHF diagnosis |
| 17 | PA Required> 12 Units/30 Days supply |
| 19 | Preferred < 8yo |
| 23 | ULTRACET - Use Tramadol & Acetaminophen separately |
| 24 | PA Required >= 21 yo. |
| 28 | PA required for quantities exceeding 60-4mg tabs, 60-8mg tabs |
| 29 | PA required for quantities exceeding 60-4mg tabs, 60-8mg tabs. |
| 36 | Payable for members who are 12 years of age and older. Quantity limitations of 12 packets/4 weeks (28 days) or a total of 48 packets/16 weeks (112 days). |
| 37 | Restricted to persons 40 years of age and older |
| 39 | Grandfather Existing Users |
| 46 | Grandfather for seizure disorder. |
| 47 | Preferred with Conditions and allow a one time fill. |
| 50 | Requires a Selected Brand Name Drug PA |
| 52 | Imipramine Pamoate - Use Imipramine HCL |
| 63 | Initial fill limited to 15 day supply. |
| 64 | Use Multiples of Phenytoin Sodium 100mg Capsules. |
| 69 | Payable for members who are 18 years of age and older. Quantity limitations of 30 grams/4 weeks (28 days) or a total of 120 grams/16 weeks (112 days) |
| 70 | Payable for members 50 years of age and older without prior authorization |
| 72 | Preferred < 2 years of age |
| 74 | PA Required < 4 years of age |
| 77 | PA Required < 6 years of age |
| 78 | PA Required < 9 years of age |
| 80 | PA Required < 18 years of age |
| 87 | No manual PA required if HMG-CoA reductase inhibitor found in member's pharmacy claims history in past 12 months. |
| 90 | No manual PA required if a preferred injectable MS agent is found in member's pharmacy claims history in past 12 months |
| 93 | No PA required for members 6 years of age or older when dosed within established quantity limits |
| 98 | PA required. Preferred for all indicated diagnoses after step through one preferred TNF. |
| 99 | Preferred product is authorized generic of EpiPen distributed by labeler 49502 |

| Comment Num | Comment |
|---|---|
| 105 | Unit Dose Preferred. No manual PA required if a preferred artificial tear agent is found in member’s pharmacy claims history in past 12 months |
| 106 | Preferred for indicated age group (2 to 12 years of age) |
| 110 | 72-hour emergency supply not available |
| 111 | PA required < 6 years of age and > 17 years of age |
| 112 | PA Required < 3 years of age and > 20 years of age |
| 113 | PA Required < 6 years of age and > 20 years of age |
| 117 | PA Required < 12 years of age |
| 119 | Preferred product is labeler 00781 |
| 121 | Preferred after step through armodafinil or modafinil |
| 122 | PA required for quantities exceeding 50mL per 30 days |
| 125 | PA required. Preferred for treatment with quantity limit; Non-Preferred for prophylaxis |
| 126 | PA Required < 6 years of age and > 9 years of age |
| 127 | PA required > 12 years of age |
| 128 | PA Required < 16 years of age and > 20 years of age |
| 129 | PA Required < 17 years of age and > 20 years of age |
| 130 | PA required for 110mcg >= 12 years of age |
| 131 | Preferred product is by labeler 00955 |
| 132 | PA required for males |
| 133 | PA required < 16 years of age |
| 134 | Preferred < 5 years of age |
| 135 | 12 month lookback for 2 antiepileptic drugs |
| 136 | PA required for diagnosis confirmation |
| 137 | APIs and Excipients |
| 138 | Follows step therapy for atypical antipsychotics |
| 139 | 14-day supply per 60 days |
| 140 | Step through one preferred Step 1 antipsychotic, except MDD step through 1 antidepressant |

**Iowa Medicaid Preferred Drug List (PDL)**
**New Drug Process**

## New Drug Entities

New drug entities (including new generics and new drug product dosage forms of existing drug entities) will be identified weekly and immediately be coded as "Non-preferred-Prior Authorization required" until presented at the next scheduled P&T [pharmaceutical and therapeutics] Committee meeting. If the drug category requires step therapy, the step therapy requirements must also be met, treating the new drug as a non-preferred, step 3 drug. These prior authorization and step therapy restrictions will continue through the review process, including while committee recommendations are being made, and lasting until DHS makes a final determination. The 72-hour emergency supply may not be available for medications intended for a short duration of therapy.

## Exceptions to the Non-preferred default policy for new PDL drugs

There are two major potential exceptions to the non-preferred default policy for new PDL drugs:
A). If a new medication is classified as a priority drug by the FDA, the State may indicate that such a drug is preferred, until the drug is reviewed by the P&T Committee at the nearest scheduled meeting.
B). The State may decide to designate a new drug as "draft preferred" and provide immediate access and increased therapeutic choice to physicians until the drug is reviewed by the P&T Committee at the nearest scheduled meeting if:
- a new drug is therapeutically equivalent or superior to existing preferred or non-preferred choices, and
- is as safe or safer than existing preferred or non-preferred choices, and
- the net cost, adjusted for all rebates, is less expensive than all existing preferred choices.

## Existing PDL Drugs

Although the State discourages supplemental rebate offers on existing PDL drugs between annual bidding periods, it may entertain such bids and may accept them if they are determined to represent significant additional savings or if they would replace a delinquent manufacturer's product or a preferred drug pulled from the marketplace or significantly restricted by the FDA. This interim preferred status will remain in effect until the drug is reviewed by the P&T Committee at the next scheduled meeting. Supplemental rebates will only be invoiced for approved drugs under contract. Draft preferred drugs with supplemental rebates will not be invoiced until approved by the Committee and accepted by the State. At that time, the supplemental rebates will be invoiced back to the effective date of the agreement, which is the date the drug began to benefit from preferred status

## Recommended Drug List

The Recommended Drug List (RDL) is a group of drugs subject to clinical prior authorization only if indicated in the comment section. These drug categories include antiretroviral drugs primarily for the treatment of human immunodeficiency virus or acquired immune deficiency syndrome and antineoplastic drugs used for the treatment of cancer. The P&T Committee classifies RDL drugs as either recommended or non-recommended on the basis of their relative clinical/cost values. Drugs on the RDL may change to Preferred or Non-preferred status when generic products become available. The State favors recommended drugs equally with preferred drugs, as the State may collect supplemental rebates from drugs on both lists.
