**Prior Authorization (PA)** is required for CNS stimulants for patients 21 years of age or older. Prior to requesting PA for any covered diagnosis, the prescriber must review the patient's use of controlled substances on the Iowa Prescription Monitoring Program (PMP) website. Request must adhere to all FDA approved labeling for requested drug and indication, including age, dosing, contraindications, warnings and precautions, drug interactions, and use in specific populations. Payment for CNS stimulants will be considered when patient has an FDA approved or compendia indication for requested drug under the following conditions: 1) Attention Deficit Hyperactivity Disorder (ADHD) meeting the DSM-5 criteria and confirmed by a standardized rating scale (such as Conners, Vanderbilt, Brown, Snap-IV). Symptoms must have been present before twelve (12) years of age and there must be clear evidence of clinically significant impairment in two or more current environments (social, academic, or occupational). Documentation of a recent clinical visit that confirms improvement in symptoms from baseline will be required for renewals or patients newly eligible that are established on medication to treat ADHD. Adults (≥ 21 years of age) are limited to the use of long-acting agents only. If a supplemental dose with a short-acting agent is needed for an adult in the mid to late afternoon, requests will be considered under the following circumstances: the dose of the long-acting agent has been optimized, documentation is provided a short-acting agent of the same chemical entity is medically necessary (e.g. employed during the day with school in the evening), and will be limited to one unit dose per day. Children (< 21 years of age) are limited to the use of long- acting agents with one unit of a short acting agent per day. Use of an amphetamine agent plus a methylphenidate agent will not be considered for a diagnosis of ADHD. 2) Narcolepsy with diagnosis confirmed with a recent sleep study (ESS, MSLT, PSG). 3) Excessive sleepiness from obstructive sleep apnea/hypopnea syndrome (OSAHS) with documentation of non-pharmacological therapies tried (weight loss, position therapy, CPAP at maximum titration, BiPAP at maximum titration or surgery) and results from a recent sleep study (ESS, MSLT, PSG) with the diagnosis confirmed by a sleep specialist.

Payment for a non-preferred agent will be authorized only for cases in which there is documentation of previous trial and therapy failure with a preferred agent. \* If a non-preferred long-acting medication is requested, a trial with the preferred extended-release product of the same chemical entity (methylphenidate class) or chemically related agent (amphetamine class) is required. The required trials may be overridden when documented evidence is provided that the use of these agents would be medically contraindicated.

Requests for Vyvanse for Binge Eating Disorder must be submitted on the Binge Eating Disorder Agents PA form.

## Preferred

- ☐ Amphetamine Salt Combo
- ☐ Amphetamine ER Caps
- ☐ Armodafinil
- ☐ Concerta
- ☐ Dexmethylphenidate ER Caps
- ☐ Dexmethylphenidate Tabs
- ☐ Dextroamphetamine ER Caps
- ☐ Dextroamphetamine Tabs (5mg & 10mg)
- ☐ Dyanavel XR Suspension
- ☐ Focalin XR
- ☐ Methylphenidate CD Caps
- ☐ Methylphenidate IR Tabs
- ☐ Methylphenidate ER Tabs
- ☐ Methylphenidate LA Caps
- ☐ Methylphenidate Solution
- ☐ Modafinil
- ☐ Procentra
- ☐ Quillichew ER
- ☐ Quilivant XR
- ☐ Sunosi (step through armodafinil or modafinil)

## Non-Preferred

- ☐ Adderall
- ☐ Adderall XR
- ☐ Adzenys XR ODT
- ☐ Amphetamine Sulfate Tabs
- ☐ Amphetamine/ Dextroamphetamine 3 Bead Cap ER
- ☐ Aptensio XR\*
- ☐ Azstarys
- ☐ Cotelpla\*
- ☐ Daytrana
- ☐ Dexedrine
- ☐ Dextroamphetamine Tabs
- ☐ Dyanavel XR Chew Tab
- ☐ Evekeo
- ☐ Focalin

- ☐ Jornay PM
- ☐ Lisdexamphetamine
- ☐ Methylin Solution
- ☐ Methylphenidate Chew
- ☐ Methylphenidate TD Patch
- ☐ Methylphenidate ER 45,63,72mg Tabs
- ☐ Methylphenidate ER Caps\*
- ☐ Methylphenidate XR Caps\*
- ☐ Mydayis\*
- ☐ Nuvigil
- ☐ Provigil
- ☐ Relexxii\*
- ☐ Ritalin
- ☐ Ritalin LA\*
- ☐ Vyvanse
- ☐ Xelstrym

**IMPORTANT NOTE:** In evaluating requests for prior authorization, the consultant will consider the treatment from the standpoint of medical necessity only. If approval of this request is granted, this does not indicate that the member continues to be eligible for Medicaid. It is the responsibility of the provider who initiates the request for prior authorization to establish by inspection of the member's Medicaid eligibility card and, if necessary, by contact with the county Department of Health and Human Services, that the member continues to be eligible for Medicaid.
