Payment for a non-preferred isomer, prodrug or metabolite will be considered when the following criteria are met: 1) Previous trial with a preferred parent drug of the same chemical entity at a therapeutic dose that resulted in a partial response with a documented intolerance and 2) Previous trial and therapy failure at a therapeutic dose with a preferred drug of a different chemical entity indicated to treat the submitted diagnosis if available. The required trials may be overridden when documented evidence is provided that the use of these preferred agent(s) would be medically contraindicated.

- ☐ Horizant (trial of gabapentin) HFA)
☐ Xopenex HFA / levalbuterol tartrate (trial of albuterol)

Payment for a non-preferred alternative delivery system will only be considered for cases in which the use of an alternative delivery system is medically necessary and there is a previous trial and therapy failure with a preferred alternative delivery system as noted in ().

IMPORTANT NOTE: In evaluating requests for prior authorization, the consultant will consider the treatment from the standpoint of medical necessity only. If approval of this request is granted, this does not indicate that the member continues to be eligible for Medicaid. It is the responsibility of the provider who initiates the request for prior authorization to establish by inspection of the member's Medicaid eligibility card and, if necessary, by contact with the county Department of Health and Human Services, that the member continues to be eligible for Medicaid.
